WHAT IS THIS DISEASE CALLED DYSPEPSIA?

Like a thief at night, it steals upon us unawares. The patients have pains about the chest and sides, and sometimes in the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad tasts, especially in the morning. A sort of sticky elime collects about the teeth. The appetite is poor. There is feeling like a heavy load on the stomach; sometimes a faint, aligone sensation at the pit of the stomach which food does not satisfy. Eyes are sunken, the hands and feet become condand feel clammy. After awhile a cough sets in, at first dry, but after a few months it is attended with a greenish colored expectoration. The patient feels tired all the while, and sleep does not seem to afford any rest. After a time he becomes nervous, irritiable and gloomy, and has evil forebodings. There is a gliddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become costive; the skin is dry and hot at times; the blood becomes thek and stagnant; the whites of the eyes become tingred with yellow; the urine is scanty and high colored, depositing a sediment after standing. There is frequently a spitting up of the food semetimes with a sour taste. the back. They feel dull and sleepy; the positing a sediment after standing. There is frequently a spitting up of the food, sometimes with a sour taste and sometimes with a sweetish taste; this is frequently attended with palpitation of the heart; the vision becomes impaired with spots before the eyes; there is a feeling of great prostration and weakness. All of these systoms are in turn present. It is thought that nearly one-third of our population has plaint, some for Dyspepsia, others for Kidney Disease, etc., etc., but none of the various kinds of treatment have been

attended with success.

Now, the Shaker Digestive Cordial causes the food eaten to be digested. This will cause an appetite for more food, and this being digested will result in an increase of strength, an increase of deep and an increase of the property of the strength.

A ten cent trial bottle will produce result. Its good effect will be realized at once. You will not have to take a dozen bottles to find out if it is doing you any good. Try it, and then give praise to the Shakers of Mount Leban-

SELMA, ALA., April 16.—Special.—The Alabama Telephone Construction Company, known as the Harrison Telephone Exchange of Seima, has collapsed. The exchange was built just eighteen months ago to compete with the Southern Bell Telephone Exchange. The poles and wires were sold yesterday at a nominal price, said to be enough to cover the outstanding indebtedness. The original investment proved a total loss.—Atlanta Constitution, April 17, 1896.
